

## Contact and sale...

This project is as unique as it is exclusive. Nowhere in Costa Rica will you find a similar product on such special location. For that reason we can imagine you would like to register right away.

The tender fee is kept low for this reason, only \$30,000, which gives you the right of purchase, involves you in the final design of your residence and enlists you to participate in the conservation of 5 acres (2 hectares) of virgin jungle.

Would you like to get more information or make an appointment to visit the site?
